Prepare your computer a day or two in advance of the meeting as follows:

- 📌 Visit <http://usgs.webex.com>
- 📌 Select **Setup / Meeting manager** (left side of page)

Goal: *We hope to fully engage the WIGICC Network and Council to develop plans, propose solutions, and implement improvements to the maximum extent possible.*

Reviewing the original Network input, the council has identified 4 major areas to address. These issues areas are:

- 📌 Business Geographics
- 📌 Data Policy/Sharing
- 📌 Data Infrastructure/Repository
- 📌 Emergency Management

A leadership group or individual has volunteered to lead each effort, we would like to engage the network in refining the issues to be addressed, develop a set of actions to take and enlist people to work on the issues. We would like to develop Communities of Practice around these issues if possible.

Please visit the WIGICC website, <http://wigicc.org/>, to:

- 📌 Register for the network
- 📌 **Take the Network Meeting Logistics survey**
- 📌 See meeting materials as they are posted
