

2010 LiDAR Data Acquisition Grants

WI Department of Commerce
Community Development Block Grant
Emergency Assistance Program

This map shows the current status of approximately \$3 million in LiDAR data acquisition grants offered to counties through the Wisconsin Department of Commerce Community Development Block Grant Emergency Assistance Program (CDBG-EAP). Crawford County was offered funding for the Kickapoo Valley stream corridor, and Dane County was offered partial funding for a 2009 LiDAR project. All other grants are county-wide. Grant offers are not finalized until accepted by the counties.

* Grant eligibility was determined by 2008 federal disaster declarations.
