

Wisconsin Statewide Parcel Data

Wisconsin Act 20, the biennial state budget for 2013-2015, created statutory directives for state and local governments to coordinate on the development of a statewide digital parcel map. The Statewide Parcel Map Initiative is an effort to create a digital parcel database for Wisconsin by aggregating local parcel datasets utilizing GIS technology. The Parcel Initiative is a multi-faceted, multi-year collaborative effort between the Department of Administration, the State Cartographer's Office, and Wisconsin's local governments.

The current version of the Wisconsin parcel database ("V3") is available in several data formats in both a statewide version and as individual county datasets.

To download the database visit <http://www.sco.wisc.edu/parcels/data/>

V3 statewide zoning data, and the legacy V1 and V2 versions of the statewide parcel database, are also available on this site.

These databases are free of charge and available to the public.

Statewide Parcel Map Initiative Statewide Data

This data is provided free of charge, however, if you download data, we ask that you please complete the [feedback form](#), to tell us how/why you use the data, so that we can continue to justify offering this service.

V3 Statewide Parcel Data
Download the V3 Statewide Parcel Dataset here ([latest release v3.0.1](#))

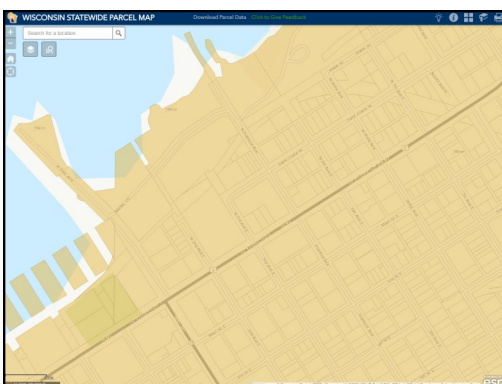

The V3 Parcel Dataset is available as a version 9.2, 10.3, and compressed 10.3 file geodatabase (.gdb). Due to its size (3.4 million records totalling 1.7 GB), file geodatabase is the optimal medium for distributing this full dataset. Individual county downloads of the V3 data are available as shapefile (.shp) and version 10.3 file geodatabase (.gdb), through the [this link](#).

V3 Statewide Zoning Data
Download the V3 Statewide Zoning Datasets here

The V3 Zoning Data is available as a single version 10.3 file geodatabase (.gdb). Individual downloads of each zoning layer is also available as shapefile (.shp), listed in the buttons below.

The V3 database can also be accessed via an online mapping application, which can be found at

<http://maps.sco.wisc.edu/Parcels>

The V3 parcel layer is hosted by Wisconsin's Legislative Technology Services Bureau as a REST service and can be found at the following service directory

<http://mapservices.legis.wisconsin.gov/arccgis/rest/services/WLIP>
