

2019 GEOSPATIAL CAREER FAIR

WHEN:

Monday, November 4th, 2:30pm to 4:00pm.

The Geospatial Career and Networking fair is offered in conjunction with the UW-Madison Geospatial Summit. For more information on the Summit please see:

<https://www.sco.wisc.edu/uw-geo/>

WHERE:

UW-Madison Gordon Dining and Event Center
Symphony Room – 2nd Floor
770 W. Dayton Street
(Corner of North Lake and Dayton)

Enter on the North side of the building

PARKING:

Parking on campus is a pain! The nearest public parking is two blocks away at the State Street Campus Garage located at the corner of North Lake and State Streets. (415 North Lake St.)

(State St. Garage looking north on Lake St.)

SETUP AND REMOVAL

Each participant will have one 2'x8' table to use as you see fit. Due to the configuration of the room, I would not plan on electricity being available. Feel free to bring tabletop displays, information about your company, and/or any handouts you would like to distribute.

I do **NOT** recommend bringing large free-standing displays for this event, as our space is very limited.

Setup Time: 10:00 a.m. to 11 a.m.

Removal Time: 4:00pm!

WHAT TO EXPECT

This is the third time we've offered a geospatial career fair on campus and had a great turnout at last year's event. We've marketed this event widely on campus, and we will be visiting classes in person to invite students to attend.

The event is intended to be a casual, and low-pressure environment for you and our students to interact.

The goals of this event are to: 1) help students understand what they can do to best prepare for the working world upon graduation; 2) give students advice on seeking internships, either at your company specifically, or in general; 3) tell students about your company and work culture.

In short, we are asking you to talk about what you do, and be available to answer questions from our students!
