MEET OUR APPS

Looking for maps, imagery or geospatial data for Wisconsin? **STOP WINGIN' IT!** Navigate to our collection of free online apps and find what you're looking for.

WWW.SCO.WISC.EDU

CLASSICS

GEODATA@WISCONSIN
MORE DATA THAN EVER BEFORE. With almost 22,000 datasets available online, Geodata@Wisconsin makes your GIS projects easier than ever! Whether you're looking for geospatial data, imagery or scanned maps, it's all at your fingertips with Geodata@Wisconsin.
geodata.wisc.edu

COLLABORATION WITH THE ROBINSON MAP LIBRARY
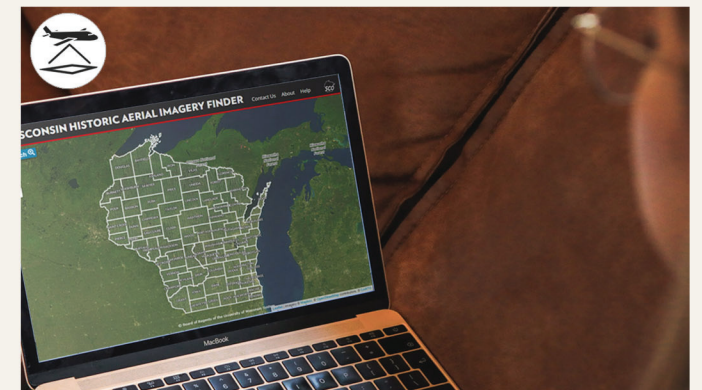

WHAIFINDER
THIS CLASSIC NEEDS NO INTRODUCTION. Download high-resolution scans of thousands of 1930s-era air photos of Wisconsin...all from your desktop! This app has been a crowd favorite over the years. Winner of a 2011 Governor's Award for Archival Innovation.
maps.sco.wisc.edu/WHAIFinder

COLLABORATION WITH THE ROBINSON MAP LIBRARY

DESIGNED TO DELIVER

STATEWIDE PARCEL MAP VIEWER
TOUGH ENOUGH TO HANDLE 3.5 MILLION PARCELS. What's under the hood of the parcel map viewer? 1.6 Gigabytes of digital parcel data. It's got every county parcel dataset in the state consolidated in one place. Now in its seventh year, there's even more data here for you to explore.
maps.sco.wisc.edu/Parcels
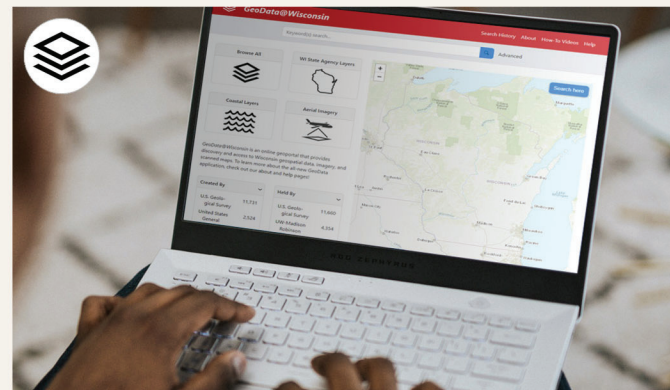

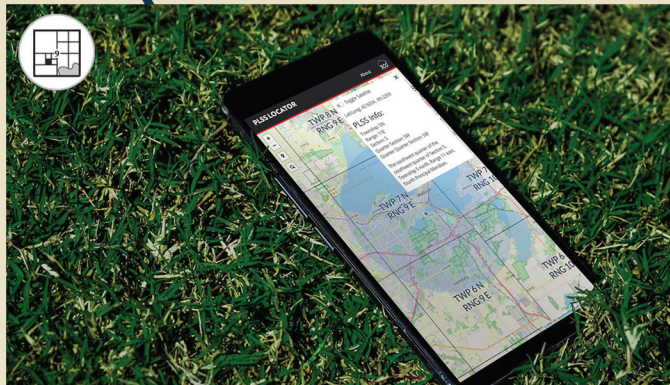

WLIP STATEWIDE PARCEL INITIATIVE

FIND LIDAR DATA
YOUR SEARCH FOR WISCONSIN LIDAR DATA JUST GOT EASIER. LAS files, DEMs, contours, breaklines... Lidar data comes in a lot of flavors. But whatever flavor you're looking for, this is the place to start. You can even download Lidar tiles quickly and easily with our new interactive tile index app.
www.sco.wisc.edu/data/elevationlidar

COLLABORATION WITH WISCONSINVIEW

AERIAL PHOTOGRAPHY CATALOG
NO MORE LATE NIGHTS. Searching for the right air photo can take time. With this statewide catalog going back to the 1920s, you can find what you need without losing sleep. Points you right to the source where photos can be obtained. Includes federal, state, local and university archives.
maps.sco.wisc.edu/apcat

COLLABORATION WITH THE ROBINSON MAP LIBRARY

COASTAL BORDNER SURVEY EXPLORER
TIME TRAVEL FROM YOUR DESKTOP. Step back in time with this collection of data extracted from 1930s Wisconsin Bordner Survey maps. Explore historic land use patterns, crop types, tree stands and infrastructure. Focused on the state's coastal counties but contains inland areas too.
maps.sco.wisc.edu/BordnerCoastal

COLLABORATION WITH FOREST & WILDLIFE ECOLOGY, UW-MADISON

UNIQUE BUT PRACTICAL

PLSS LOCATOR
WHEREWARE. You don't always need to know the Public Land Survey System Township, Range, Section, Quarter Section and Quarter Quarter Section you are in. But when you do need to know, you need this app. Also search by latitude-longitude, address, county or municipality.
maps.sco.wisc.edu/plss-locator

OUR NEWEST APP!

SURVEY CONTROL FINDER
CHANNEL YOUR INNER SURVEYOR. Where else can you access information for 28,000+ geodetic control points, 200,000+ Public Land Survey System records, and the CORS network, all from a simple, intuitive map interface with convenient export formats like KML, shapefile, GeoJSON and CSV?
maps.sco.wisc.edu/surveycontrolfinder

SURVEYORS' FAVORITE!

PRONOUNCE WISCONSIN
SOUND LIKE YOU'RE FROM WISCONSIN (EVEN IF YOU'RE NOT). Never mispronounce Chenequa or Butte des Morts again with the help of our talking place name map. Pronunciations you can actually hear... No understanding of pronunciation marks or phonetic alphabets required!
maps.sco.wisc.edu/pronouncewi

COLLABORATION WITH MISS PRONOUNCER

WISCONSIN BEARING TREES
STILL STANDING. Without trees, Wisconsin would never have been fully mapped. Starting in the 1830s surveyors began tagging special "bearing trees" to mark the locations they surveyed. Some of these historic trees survive to this day. With your help we can discover even more of them!
maps.sco.wisc.edu/bearingtrees
